ABOUT ME

Information System (Hons.) Business Computing student with a passion for learning, problem-solving, coding with experience in programming, and data analysis. I am a person which eager to learn and acquire new skills as I am a fast learner as well as adaptive. Furthermore, I am able to perform critical thinking that I developed well while working under pressure. I am currently seeking an internship placement to contribute my knowledge and skills to the advancement of the company. I can work well in a team or individually. In addition, I have a very good hands-on ability which I obtained and developed throughout my study and projects that had been done during my free time.
